

Worksheet 1 Facial Recognition

Date:

1 FIND YOUR GROUP AND CHECK IN

- Introduce yourself if you don't know everyone
- General Check In: How is everyone doing?
- Check In: What do you remember from last week/ how is your work going?

2 INTRODUCING

- If you see a friend on the street, at school, at a party, How do you recognize that it's them?
- What do you normally do when you recognize a friend out in public?
- What do you do when you think you recognize a friend, but you aren't sure?
- Has it ever happened where you said hi to, or otherwise interacted with, a friend but it turned out to be someone else?
- Is this person happy or sad? Exercise: https://greatergood.berkeley.edu/quizzes/ei_quiz/

3 CONNECTING

- In your own words, how does Facial Recognition Technology Work? Is it similar to any other technology we have seen so far?
- Brainstorm possible beneficial uses of this technology? How can this solve a modern day problem, or be useful in day to day life?

4 REFLECTING

- Does this technology work the same for everyone? What groups does it work better on?
- What does a "mistake" look like for this technology?
- What are some potentially harmful outcomes from these mistakes (or from use of this tech in general) Is this exacerbated by bias?
