

FRENCH CONVERSATION

CONTEXT

We at Dawson College recognize the importance of the French language within the corporate landscape of Quebec. In order to do business here, a certain level of comfort in the mother tongue is an absolute necessity. Our courses offer the opportunity for all levels of students to improve their current level of French, whatever that level may be. Our courses can help introduce the language to your employees, or serve as an environment for students to perfect their mastery of French. We work hard to ensure that each course is tailored to the unique needs of the participants, and in doing so we provide the optimal situation for improvement.

OBJECTIVE

Depending on the level, our students will leave this course confident in their language skills, particularly in oral comprehension and expression. Course content includes grammar, vocabulary and pronunciation at varying levels. We work on solidifying basic skills such the verbs “to be” and “to have”, all the way up to the subjunctive and future tenses, and everything in between.

CONTENT

- Basic vocabulary (alphabet, numbers, etc.)
- Relevant vocabulary to the line of work (verbs for selling, buying, etc.)
- Articles and prepositions (un, des, par, du, etc.)
- Introducing oneself and others (name, nationality, occupation, etc.)
- Regular and irregular verbs (avoir, finir, etc.)

METHODOLOGY

While the focus of our courses is on improving conversation skills, we use a variety of teaching methods to accomplish that goal. Through listening exercises, reading short texts, and pronunciation exercises, the student will become immersed in the French language, so as to feel confident in using it and understanding it in the workplace.

Dawson College Business Training Solutions provides customized courses to both the public and private sectors. We draw on the expertise of an important network of professional instructors, and 30 years of experience offering training for professional and personal development.

Conveniently located in downtown Montreal, Dawson College can accommodate large and small groups in our classrooms, laboratories and studio facilities. Our experts are also available to deliver the workshops and training you require on-site at your premises.

Dawson College Business Training Solutions is committed to working with our clients in order to accurately assess your training needs, adapt our teaching strategies and develop the content that will help your business or organization to accomplish its goals.

Our rates are competitively priced and our training consultants are able to advise you on the eligibility of your company to apply for funding from Emploi-Québec or other government agencies. We are committed to working with you in order to optimize your organization’s investment in employee development.

- Training needs assessment
- Instructional design
- Content development
- Pedagogical support and post training follow-up
- RAC services (Recognition of Acquired Competencies)
- Services in French and English

Over the past 30 years, we have been devoted in providing high-quality training to private and public sector employees. We have developed seminars and training modules that have proven to be effective and we also have the capacity to customize our content or to develop something entirely new to meet the needs of your company.
