Collage derives from the French “coller”, a technique coined by the early 20<sup>th</sup> century cubist painters Picasso and Braque. Students will discover different collage techniques in 2D and/or 3D assemblage, through which they will explore strategies for choosing and combining suggestive images and/or objects, and finding ways of composing a collage and/or an assemblage. Strategies will be developed for visual research and idea development, and for choosing and incorporating thematic elements. The acquisition of technical skills will enable the production of art projects in 2D and/or 3D assemblage. Approximate cost of materials: \$70

**520-BWA-03\*** | 45 hours

**Section 03001** Wednesday 18:30 – 21:30

This course examines the histories of art produced in Canada from practices predating European settlement to the present. In addition to studying canonical artworks by Indigenous and non-Indigenous artists that forged a distinct and hybrid Canadian identity, we will consider objects and images that sit outside of the traditional fine art mediums of painting and sculpture. This will enable an understanding of the key political and artistic stakes of representing Canada’s diverse communities. We will also explore historical events that had a direct impact on the formation of Canadian identities. Visits to historic and contemporary exhibitions are an important part of the course, which will allow us to experience Canada’s dynamic visual culture firsthand. Students will come away from this course with an understanding of how Canadian art and its history has developed, as well as the ability to articulate the major debates of the field in a compelling manner. Approximate cost of materials: \$40.

\*Students in a DEC program (*not* 08125, 08128, 08040 or 08072) who are taking this course as a complementary should register for course number 520-BWA-03.

## FRENCH

As part of the requirements for any DEC program, students must complete two French courses: one from a group of courses called “Block A”, the second from a group of courses called “Block B”. Students must register for the Block B course that is appropriate for both their level and their program. See the chart below. Students who have graduated from a Quebec high school or Quebec adult education center and have taken their Sec V Ministerial Exams in French in the last three (3) years, do **not** write placement tests. French Placement Results are automatically generated using your final Sec V French grades. All other students who plan to register for a French course but have not recently completed a credit French course at an English CEGEP, must write a placement test online before registering.
