

**Mathematics Department**  
**Introduction to Statistical Methods for Chemical Technology**  
**201-922-DW**

**COURSE OBJECTIVES**

To introduce basic concepts of statistics.

**COURSE COMPETENCIES**

This course contributes to the full achievement of competency:

***01E2: To assess data statistically.***

**Elements of the Competency:**

1. To present the data.
2. To analyze the data.
3. To evaluate the results.
4. To use control charts.

This course contributes to the partial achievement of competency:

***01DQ: To use math tools necessary for analysis.***

**Elements of the Competency:**

1. To apply logarithmic and exponential functions.
2. To graph results.
3. To apply trigonometric functions.
4. To perform error and uncertainty calculations.
5. To solve systems of linear equations.
6. To apply space vectors.
7. To apply basic combinations and probability analysis.
8. To perform basic differential and integration calculations.

## **PRE-REQUISITE**

Registration in Chemical Technology program Mathematics 504.

## **PONDERATION**

2-1-1

## **TERM WORK**

The term work is based on tests/quizzes/projects/assignments/labs.

## **FINAL EXAM**

There is no final exam in this course.

## **TEACHING METHODS**

Lectures and problem sessions

## **GRADING POLICY**

The student's grade shall consist of:

3 Class Tests	60%
Projects / Assignments / Quizzes / Labs	40%

To pass the course the students must obtain at least 60%.

## **REQUIRED TEXT AND MATERIALS**

**Text:** Manual – Statistics by George McArthur (available in bookstore)

**References:** Just The Essentials of Elementary Statistics  
by Robert Johnson and Patricia Kuby, Duxbury Press

**Calculators:** A scientific calculator with statistical functions is required.

## **MATH TUTORIAL ROOM**

Volunteer math teachers are available for help in room 7B.1 from 10:00 to 16:00 (Monday through Friday) and from 17:00-18:00 (Monday through Thursday).

## **COURSE CONTENT & TENTATIVE SCHEDULE**

**1. Descriptive Statistics (4 classes)**

**2. Linear Regression (1 class)**

**3. Probability (3 classes)**

**- Counting, definition of discrete probability, laws of probability.**

**4. The Binomial Probability Distribution (2 classes)**

**- Tables, applications.**

**5. The Normal Probability Distribution (4 classes)**

**- Table, applications, normal approximation to the binomial and applications.**

**6. The Central Limit Theorem (1 class)**

**7. Inferential Statistics (12 classes)**

**- Confidence interval estimates and hypothesis testing of means and proportions for one and two populations. Also, hypothesis testing using chi-squared.**

## **ISEP STATEMENT**

The Institutional Student Evaluation Policy (ISEP) is designed to promote equitable and effective evaluation of student learning and is therefore a crucial policy to read and understand. The policy describes the rights and obligations of students, faculty, departments, programs, and the College administration with regard to evaluation in all your courses, including grade reviews and resolution of academic grievance. ISEP is available on the Dawson website.

<https://www.dawsoncollege.qc.ca/governance/institutional-student-evaluation-policy/>

## **LITERACY STANDARDS**

Problem solving is an essential component of this course. Students will be expected to analyze problems stated in words, to present their solutions logically and coherently, and to display their answers in a form corresponding to the statement of the problem, including appropriate units of measurement. Marks will be deducted for work which is inadequate in these respects, even though the answers may be numerically correct.

## **ACADEMIC INTEGRITY POLICY**

### **Cheating in Examinations, Tests, and Quizzes**

Cheating includes any dishonest or deceptive practice relative to formal final examinations, in-class tests, or quizzes. Such cheating is discoverable during or after the exercise in the evaluation process by the instructor. Such cheating includes, but is not limited to

- a. copying or attempting to copy another's work.
- b. obtaining or attempting to obtain unauthorized assistance of any kind.
- c. providing or attempting to provide unauthorized assistance of any kind.
- d. using or possessing any unauthorized material or instruments which can be used as information storage and retrieval devices.
- e. taking an examination, test, or quiz for someone else.
- f. having someone take an examination, test, or quiz in one's place.

### **Unauthorized Communication**

Unauthorized communication of any kind during an examination, test, or quiz is forbidden and subject to the same penalties as cheating.

### **Plagiarism on Assignments and the Comprehensive Examination**

Plagiarism is the presentation or submission by a student of another person's assignments or Comprehensive Assessment as his or her own. Students who permit their work to be copied are considered to be as guilty as the plagiarizer.

### **Penalties**

Cheating and plagiarism are considered extremely serious academic offences. Action in response to an incident of cheating and plagiarism is within the authority of the teacher.

Penalties may range from zero on a test, to failure in the course, to suspension or expulsion from the college.

According to ISEP, the teacher is required to report to the Sector Dean all cases of cheating and plagiarism affecting a student's grade. (See ISEP section V-C.)

## STUDENT CONDUCT AND OBLIGATIONS

- (a) Students have an obligation to arrive on time and remain in the classroom for the duration of scheduled classes and activities.
- (b) Students have an obligation to write tests and final examinations at the times scheduled by the teacher or the College. Students have an obligation to inform themselves of, and respect, College examination procedures.
- (c) Students have an obligation to show respectful behavior and appropriate classroom deportment. Should a student be disruptive and/or disrespectful, the teacher has the right to exclude the disruptive student from learning activities (classes) and may refer the case to the Director of Student Services under the Student Code of Conduct.
- (d) Cellular phones, pagers and musical listening devices have the effect of disturbing the teacher and other students. All these devices should be turned off. Students who do not observe these rules will be asked to leave the classroom.

Everyone has the right to a safe and non-violent environment. Students are obliged to conduct themselves as stated in the Student Code of Conduct and in the ISEP section on the roles and responsibilities of students. (ISEP section II-D)

## ATTENDANCE AND COURSE PARTICIPATION REQUIREMENTS

Students should refer to the Institutional Student Evaluation Policy (ISEP section IV-C) regarding attendance.

Attendance is recommended for the successful completion of the course.

## INTENSIVE COURSE CONFLICTS & POLICY ON RELIGIOUS OBSERVANCE

If a student is attending an intensive course, the student must inform the teacher, within the first two weeks of class, of the specific dates of any anticipated absences.

Students observing religious holidays must **inform** each of their teachers, in writing, of the specific dates as soon as possible, but **no later than the end of the second week of the impacted semester or term**. Alternative arrangements convenient to both the student and the teacher must be made at the earliest opportunity. In the event that the date of a religious observance has yet to be determined, students must submit the name of the observance to their teachers and provide them with the specific date(s) as soon as it becomes available. This applies both to the semester or term, as well as to any final examination period. Students who make such arrangements will not be required to attend classes or take examinations on the designated days, nor be penalized for their absence.

It must be emphasized, however, that this College policy should not be interpreted to mean that a student can receive credit for work not performed. It is the student's responsibility to fulfill the requirements of the alternative arrangement. (ISEP Section IV-D)

A form for this purpose is available at the end of this document.

## RELIGIOUS OBSERVANCE/ INTENSIVE COURSES FORM

Students who intend to observe religious holidays or who take intensive courses must inform their teachers in writing as prescribed in the ISEP Policy on Religious Observance. (ISEP Section IV-D)

The following form must be submitted within the first two weeks of classes.

Name: \_\_\_\_\_

Student Number: \_\_\_\_\_

Course: \_\_\_\_\_

Teacher: \_\_\_\_\_

**Date of Holiday**

**Description of Holiday:**

\_\_\_\_\_

\_\_\_\_\_
