Survey 4

1. Please enter the code-name you created for Survey 2.
2. If you read the textbook on a computer or phone through MindTap, how important was it for you to be able to do that?

I could just as easily have read the paper textbook

It was useful, but not necessary

I would not have done the reading otherwise

3. If you did the exercises on MindTap, how much did it help you learn the skill or procedure?

I came to class already able to apply the skill or procedure

I still needed explanations in class in order to be able to apply the skill or procedure

I still needed explanations and practice in class in order to be able to apply the skill or procedure

Even after the explanations and practice in class I was not able to apply the skill or procedure

4. If you watched the video at the beginning of each chapter on MindTap, how much did it help you engage with the content of the chapter?

It made me eager to see how the problem would be dealt with

It helped me to see the importance of what I was about to learn

It didn't seem like an important problem

I wasn't sure how the video was relevant to the chapter

5. Did you use any of the extra features in MindTap, for example, audio-text, dictionary, glossary, flashcards, etc?

If so, please specify which ones.

6. Overall, was MindTap a helpful addition to the textbook?

Only the exercises were helpful

The exercises were somewhat helpful

The exercises were not helpful

Other features (audio-text, dictionary, glossary, flashcards, etc) were helpful

If so, please specify which ones.

7. If you prefer reading from paper rather than using an electronic source, are you more likely to do the reading if you get a hard copy in class, rather than being obliged to print it yourself?

I will only read it if I receive a hard copy.

I am more likely read it if I receive a hard copy.

It makes no difference.
